J. F. Johanson, M.D., J. Larson, Visiting Physicians

GENERAL INFORMATION

The North Dakota School for the Blind is maintained by the State of North Dakota under the direction of the State Board of Administration.

LOCATION: At the present time the school is located in Bathgate, North Dakota. A new school is under construction in Grand Forks, North Dakota and will be completed the early part of 1961. After the completion date, the school will be located in Grand Forks, North Dakota.

PURPOSE: The purpose of the North Dakota School for the Blind is to provide a complete educational program from Kindergarten through High School for visually handicapped boys and girls between the ages of six and twenty-one.

WHO MAY ENROLL? Any child who cannot make satisfactory progress in the public schools because of limited vision is eligible to enroll in the North Dakota School for the Blind if he is capable of learning and a resident of the State of North Dakota.

HOW DOES A STUDENT ENROLL? Application forms may be obtained from the superintendent of the school. The forms must be properly filled out and returned to the superintendent for his approval before the child may be enrolled.

WHAT IS THE COST? There is no expense to residents of the State of North Dakota for tuition, board, room, laundry, books and ordinary medical attention. Parents are required to pay travel ex-

Reading Braille

penses to and from the school and to supply the child with necessary clothing.

MEDICAL CARE: The school furnishes ordinary medical care for all of the children. Parents are expected to pay for hospital care and surgery.

SCHOOL TERM: A regular nine months' school term begins early in September and continues until the first week of June. The children remain at the school during this time except for a two weeks' Christmas vacation and short Thanksgiving and Easter vacations. Parents are encouraged to take their children home for weekends and to visit them at the school.

TEACHERS: The teachers employed are specially trained in methods of teaching the visually handicapped.

HOUSEMOTHERS: Housemothers are employed to supervise the children during the hours when they are not in the classroom. The administration strives to duplicate the home environment.

EDUCATIONAL TRAINING

Beginning with kindergarten and continuing through high school, the totally blind and the partially sighted receive an excellent education under trained and experienced personnel. The courses of study, textbooks, classroom equipment and physical facilities compare favorably with those found in the best public schools in the State of North Dakota. Our aim is to provide the best education possible for the students in order to prepare them for happy and successful lives. The

Large relief maps are one type of special equipment used.

school through its educational and extra-curricular programs attempts to provide activities and conditions conducive to a well-rounded social and intellectual life.

BRAILLE DEPARTMENT

In the Braille Department we have totally blind pupils and partially sighted pupils who cannot see well enough to read large print. In this department they learn to read Braille which is a system of raised dots. They read Braille with their finger tips. Two methods of writing Braille are taught. In the primary department, the beginners use a Braille writer which is a fast and convenient method of

Writing with a Braille writer.

writing Braille. The Braille writer looks like a small portable typewriter but has just six keys to correspond with the six Braille dots. Later on the pupils are taught to use a small slate and stylus for writing Braille. The slate consists of two pieces of metal hinged on the left side. Paper is inserted between the pieces of metal and the pupil embosses Braille dots with his small stylus. Special wooden and plastic maps that may be taken apart like a jig-saw puzzle are used in teaching geography.

SIGHT SAVING DEPARTMENT

Pupils in the Sight Saving Department prepare their lessons in the same manner as boys and girls do in the public schools. The vision of pupils in this department ranges from 20/200 to 20/70. Before a pupil is assigned sight saving work, it is necessary to have the recommendation of an ophthalmologist. Special equipment is used in this department which makes it possible for the pupils to work without undue eyestrain. The desks are movable and adjustable so that the best lighting effects can be obtained. Special cream colored writing paper with heavy green lines is used and the pencils have soft black lead. The board work is done on a green board instead of a blackboard and the chalk is yellow in color. The textbooks for this department are printed in large type (24 point type) which is about the size of the average one-column newspaper headline. The pages are cream colored and have no gloss. Every precaution is taken to remove eye strain from all school work. A specially trained teacher has charge of this department.

Sight Saving Pupils

MUSIC

Our pupils enjoy music. Instruction is available in voice, piano, and band. This department is well equipped and a number of our pupils play more than one musical instrument. Some of our pupils become outstanding performers in the field of music. The primary purpose of this department is to develop an appreciation of music that will bring pleasure to the pupils during their leisure hours throughout life.

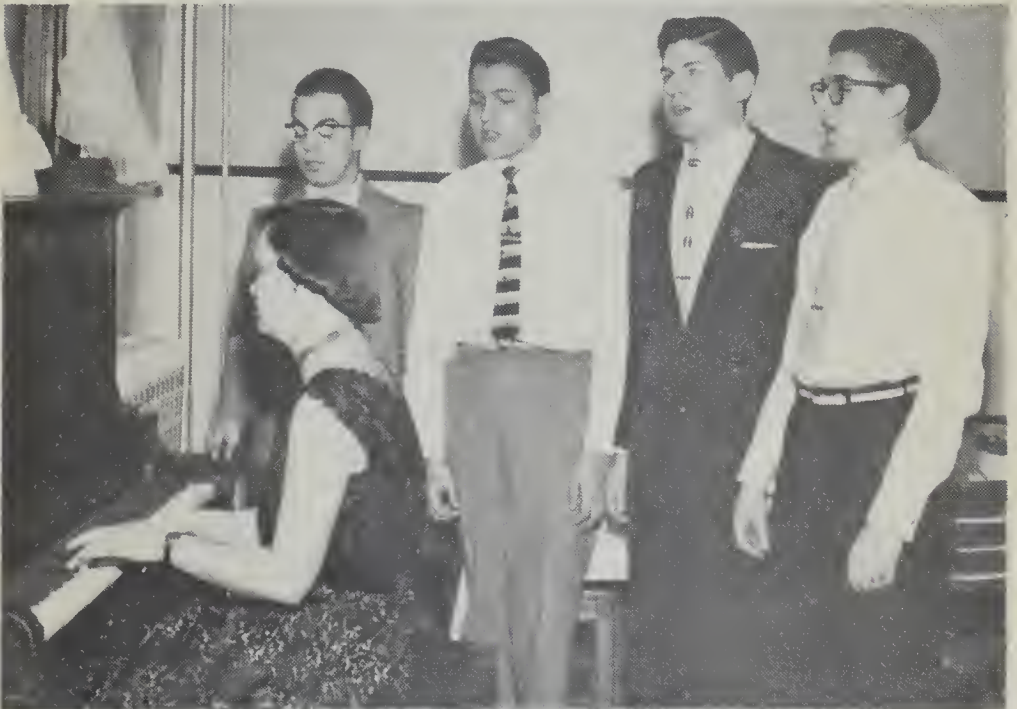

Several times a year musical programs are presented to the public in our school auditorium. Many times a year our pupils furnish talent for musical programs requested by civic and social organizations in our state.

VOCATIONAL TRAINING

Vocational training includes a very good course in piano tuning and repairing which is a profitable trade for blind boys. This trade has enabled a number of our graduates to become self-supporting.

All of our boys and some of our girls are given a course in rug weaving. We have an excellent rug weaving department and there is a big demand for the type of rugs that we weave. Rug weaving has helped some of our pupils to supplement their incomes.

Last year a course in woodworking was added to our curriculum. The boys and girls are taught the proper use of common hand tools and make bird houses, checkerboards, what-not shelves, planters, and lawn ornaments.

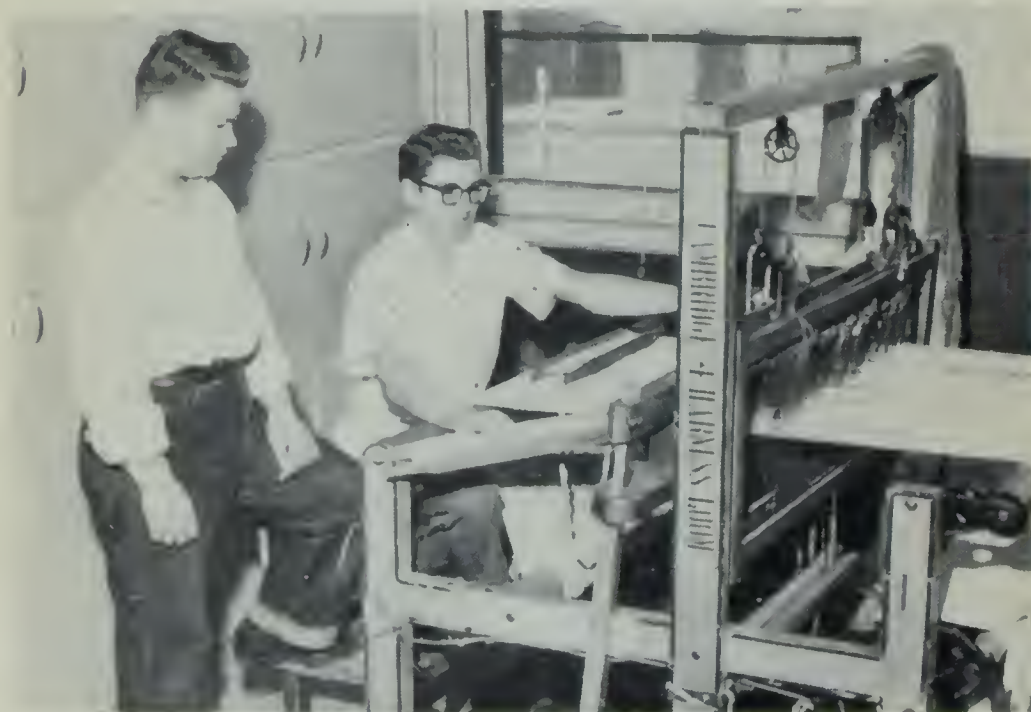

Our Boys' Quartet

A basic course in home economics is offered which includes instruction in sewing, care of clothing (washing, ironing, mending and sewing), cooking, nutrition, home management, personal and family relationships, and housing and home furnishings.

**Piano tuning continues to offer profitable employment
to many well-trained blind men**

A Full Course in Rug Weaving is Offered

TYPEWRITING

All of the pupils are taught typewriting. This subject is introduced in the fifth grade which is much earlier than in the public school curriculum. The pupils use the typewriter to communicate with their friends as well as for written school lessons. Some of our graduates are trained dictaphone operators and have good positions in our state.

HEALTH

The general health of the pupils during the biennium has been excellent. Nutrition is recognized as a vital factor in growing children and menus are planned to give a sufficient quantity of food and the essential elements needed for good bodily growth and development.

SPORTS AND RECREATION

Healthful outdoor sports and exercises are encouraged. The campus is large and well equipped with slides, swings and other playground equipment. Our pupils enjoy many of the outdoor games and sports that seeing children enjoy. Hikes are taken daily at 4 p.m. under the direction of our teachers.

In the winter we have a large outdoor skating rink and warming house. Ice skating is the pupils' most popular sport. The pupils help maintain the rink under the supervision of the superintendent. The superintendent and teachers give the pupils instruction in skating.

A Dictaphone Course is Offered

Playtime

When the weather is favorable the boys and girls skate every evening during the winter months.

Bowling is another sport that our pupils enjoy. Interest in bowling among schools for the blind is on the increase. There are some very good reasons for this. It is a clean sport that offers a lot of fun and excitement and it is an activity that pupils can participate in after graduation. Our school does not have a bowling alley; however, we are able to make satisfactory arrangements with the owner of the Cavalier Bowling Center.

Many picnics are held during the school year. We have an attractive fireplace and grill on the campus where many of the picnic meals are prepared and served. Several times during the school year the pupils are taken in our school bus and station wagon to places of interest for a day's outing. The visits to Winnipeg, Manitoba are especially enjoyed.

Our pupils take an active part in the young people's societies in our local churches. Some of them have been elected officers in church youth organizations. Many of our pupils sing in church choirs and prepare special numbers for church services.

Many dancing parties are held during the school year. Special instruction is given in ballroom and square dancing.

Volleyball

SCOUTING

Our Girl Scout Troop is very active on the campus. There is a meeting every week which may be a general meeting, a study group, a party, or a picnic. Service is the keynote of Girl Scouting; our Girl Scout Troop has a brilliant record in this regard.

Bowling

Square Dancing

Many of our Girl Scout activities have been remunerative. Our Scouts sell pop, hand lotion, napkin holders, dishcloths, popcorn and candy. The proceeds from the sales are used to pay the expenses of the annual outing and for donations to the Red Cross and numerous other worthy organizations. At Christmas time the Scouts bring cheer to the St. John's Orphanage in Fargo, North Dakota. They send gifts to a number of the boys and the girls in the Orphanage.

A special outing is planned each spring. Often the Girl Scouts and their leaders are guests at Dr. Woutat's summer home on Lake

**Senior Girl Scouts
Sunshine Troop No. 40**

Bemidji in Minnesota. Among the activities enjoyed are horseback riding, swimming, sight-seeing, camping and speed boat riding.

Every year the Scouts and their leaders spend a week end sight-seeing in Winnipeg, Manitoba. They have the opportunity to visit large stores, radio stations, museums, zoos, parks and historical places of interest.

Last May the Girl Scouts and leaders from Pembina and Grafton were dinner guests of our Scouts. After a well-planned program, our girls shared an evening of fun and companionship with the Pembina and Grafton Scouts.

Miss Rose Samuelson, one of our Girl Scout Leaders, attended a Workshop for Leaders of Handicapped Troops in Minneapolis.

BOYS' CLUB

The Beavers, a boys' club, was organized by Miss Ada E. Mark, a teacher, in the fall of 1947. The club places emphasis on three major aims: social development, wise use of leisure time, and citizenship. The club takes an active part in the work being done for crippled children and each year sends a gift to the children at the Crippled Children's School in Jamestown, North Dakota. They also send gifts during the year to twenty boys at the Grafton State School.

Each spring the club sponsors a successful school carnival. The money that the club makes is used to defray the expenses of the annual trip and for contributions to the Crippled Children's School, gifts for the boys at the Grafton State School, the Red Cross, and other worthy organizations.

Each spring the boys and their leaders enjoy an interesting tour of the city of Winnipeg. These trips have educational value and enhance learning at our school.

MUSIC CLUB

The Music Club meets once a week and its aim is to stimulate the pupils' interest in music. The group studies harmony, history of music, and the lives of outstanding composers. A special project last year was dance instruction by our music teacher who has charge of this club.

The club sponsors candy sales, the proceeds of which are used to pay the expenses for trips to concerts.

LIBRARY

Our school has a braille circulating library which provides a wide range of reading material for the blind in North Dakota. The books are sent to blind borrowers in the state as "Free Reading Matter for the Blind" free of charge. We also have a large braille library containing textbooks for classroom use.

CANE TRAVEL

A course in Cane Travel is offered our boys and girls. The purpose of the course is to train the pupils to move about easily thereby giving them more independence.

WHAT SOME OF OUR GRADUATES ARE DOING

Through the years the North Dakota School for the Blind has turned out many fine, talented, substantial citizens to take their place in society. These graduates are pointed to with pride by our school and are respected by their fellowmen. Almost all of our graduates attend schools of higher learning to prepare themselves for suitable employment. Financial assistance is available for this purpose; this assistance is secured from the North Dakota Vocational Rehabilitation Service. This assistance includes travel expenses to and from the college or place of learning, books, tuition, and the cost of having a reader.

During the past biennium six of our graduates have received degrees from schools of higher learning. At the present time three of our graduates are attending the University of North Dakota. All

Cane Travel Increases Independence

of our graduates take an active part in college activities and are above average scholastically which speaks well of our school and the training that they receive here.

Occupations of graduates:

Boys	Girls
Teachers	Grade School Teachers
Rehabilitation Workers	High School Teachers
Chiropractors	Piano Teachers
Salesmen	Resource Teacher
Radio Repairmen	Tutors
Farmers	Speech Therapist
Baker	Choir Director
Masseur	Dictaphone Operators
Magazine Stand Operators	Social Service Workers
Owner of Dance Orchestra	County Welfare Worker
Ordained Ministers	Masseuse
Piano Tuners	Seamstress
Weavers	Stenographers
Trailer Court Owner and Manager	Housewives
Electricians	Industrial Plant Workers
Rest Home Manager	Industrial Teacher
Industrial Teacher	Secretary
School Superintendent	

SPECIAL ENTERTAINMENT DURING BIENNIUM

The pupils are away from home for nine months of each year. During this time the school tries to maintain all of the activities which normally would be carried on in the home. This means that the social and cultural life of the boys and girls must receive special attention. An effort is made during the year to give a variety of outside entertainment in addition to our regular school parties and programs.

During the past biennium the University of North Dakota Madrigal Club, under the direction of Professor Hywel C. Rowland, came here twice to present concerts.

Every year our older pupils attend the Artists Series in Grafton, North Dakota. Four outstanding concerts are presented each year. Our pupils do enjoy this type of entertainment.

Twice during the past biennium the pupils were guests at the Shrine Circus in Grand Forks and the Ice Capades in Winnipeg, Manitoba. In this area, they attended many lyceum programs, class plays and 4-H Revues.

Many times during the school year the pupils are taken in our school bus to neighboring towns on pleasure and shopping trips.

LIONS CLUB CHRISTMAS PARTY

Each year the Grand Forks Lions Club royally entertains our pupils and staff at a Christmas Party in Grand Forks, North Dakota. The members of the Lions Club plan a day full of interesting activities. All of us here at our school appreciate the keen interest that the Grand Forks Lions Club has in our students. The Lions Club Christmas Party is the highlight of our school year.

RETIREMENT

Miss Ada E. Mark, one of our outstanding Braille teachers, retired May 31, 1960, after having given forty-one years of devoted service to the North Dakota School for the Blind. She was an able and devoted teacher, as well as a counselor to many of our boys and girls.

PROFESSIONAL DEVELOPMENTS

April 25, 1959, Miss Rose Samuelson, a teacher and Girl Scout Leader in our school, attended a Workshop for Leaders of Handicapped Troops in Minneapolis, Minnesota. The purpose of this workshop was to deepen the understanding and increase the skill of persons using the Girl Scout program in the rehabilitation of children with handicaps.

Late in October 1959, Herbert D. Jeffrey, Superintendent, attended a meeting of the Trustees of the American Printing House for the Blind in Louisville, Kentucky. The American Printing House supplies all of our braille and large type books, relief maps, globes, slates, stylii, as well as providing many other services for visually handicapped people throughout the United States.

Rose Samuelson, Joyce Hoffa, and Superintendent Herbert D. Jeffrey attended a Workshop concerning Special Education at the University of North Dakota.

Herbert D. Jeffrey attended the biennial convention of the American Association of Instructors of the Blind in Nashville, Tennessee in June, 1960.

Herbert D. Jeffrey was appointed a member of the newly formed screening committee in North Dakota which selects candidates who are eligible to receive an education under Senate Bill No. 95 passed by the 1959 Session of the Legislature. Senate Bill No. 95 contains a provision for the education of the deaf-blind children in North Dakota.

SPECIAL GIFT

Our school was the recipient of \$1,000.00 from the estate of Alice Bertha Hannes of Harvey, North Dakota. This money will be used in accordance to the wishes of Alice Bertha Hannes as indicated in her Last Will and Testament. This is the first time that our school has been remembered in a Will.

SPECIAL HONOR

At an Honors Day Program at the University of North Dakota, Lester Ketterling, one of our graduates, was elected to Phi Eta Sigma, a National Freshmen Honor Society for men for scholarly achievement; he was also listed on the roll of honor in scholarship.

SPECIAL CONCESSIONS AVAILABLE TO THE BLIND

The Federal Income Tax Law provides for an additional personal exemption of \$600.00 for every blind adult. The North Dakota Income Tax Law has the same provision. The legal definition of blindness is the same in both cases. This special concession was made in recognition of the fact that blind persons have certain expenses which seeing taxpayers do not have to meet.

The blind in North Dakota also receive special exemptions for personal property taxes and real estate taxes on their homes.

HOME VISITS

Another valuable service that our school offers is visiting the homes of pre-school blind and partially-seeing children in North Dakota. The home visiting is a form of counselling to the parents in their homes from the time the child is first known to us until such time as other services replace this need. A specially trained teacher is in charge of this program and the annual visits are made during the summer months.

IMPROVEMENTS AND REPAIRS

The usual necessary repair work and painting were taken care of in order to keep our buildings in good condition. The dormitories and a number of other rooms in the main building were painted.

CONSTRUCTION OF NEW SCHOOL

Bids were opened September 15, 1959 in Grand Forks, North Dakota for construction of a new North Dakota School for the Blind in Grand Forks. The contracts were let a few days after the bids were opened and construction started immediately. The completion date has been set for December 1, 1960. The new school is located on a ten acre tract of land just west of the English Coulee, near the University of North Dakota. The University of North Dakota has contracted to extend its steam line to the site, so a power house is not included in the new school plans.

PRESENT AND FUTURE NEEDS

Additional work and material will be needed to complete some of the facilities that were omitted (because of lack of funds) from the initial program for the new School for the Blind in Grand Forks.

North Dakota. Some of the additional facilities needed are: Garage, Gym-Auditorium, Industrial Shop, Sound System, Intercom, Venetian Blinds in Classrooms, Public Sidewalks and Private Sidewalks.

RECOMMENDATIONS

I recommend that the proposed budget for the 1961-63 biennium be approved in order that we may maintain the same high standard of service to the young blind in North Dakota.

CONCLUSION

In concluding this report, I desire to acknowledge the sincere efforts on the part of all officials of our state government who have consistently provided so well for the material comforts of our pupils.

The continued growth and improvement in the educational and social program that we offer our pupils is possible because of the fine cooperation of the members of our staff who have the best interests and understanding of our pupils uppermost in their thinking at all times.

To you, the Members of the Board of Administration, goes my deep appreciation of your enthusiastic and loyal support. Without your wise counsel and your willingness to share responsibilities, the accomplishments of the biennium would not have been possible.

Respectfully submitted,
HERBERT D. JEFFREY
Superintendent
